

In 2011, I made a brave decision to purchase my home after renting for 7 years and so far it has been a wonderful experience.

I didn't know what homeownership would be like and I was a bit nervous about it. The team at PHFA made the transition seamless. They assured me that there are many resources that are available to me and encouraged me to take advantage of them. PHFA also kept me updated with all the latest newsletters and other programs that they have for us.

I love the service from PHFA and more than anything they helped me to achieve my homeownership dream.
